Report of Selectmen

To the Voters of the Town of Millbury:

Your Selectmen herein present the reports of the various Town Officers for the fiscal year ending December 31, 1928, also the report of their doings on the matters especially referred to them.

Bridge at Central Cemetery

At the last annual town meeting \$5,000 was appropriated for the construction of a cement bridge over the Blackstone River at the approach to Central Cemetery.

Plans and specifications for the bridge were prepared by Civil Engineer J. E. Gallagher, of Worcester.

Bids for the construction of the bridge were received from several contractors and the lowest bidder, Thomas Hill, of Millbury, received the award.

The bridge was completed in good time and we believe the work reflects much credit upon the engineer and contractor. The approaches to the bridge are protected by iron pipe railings with standards firmly imbedded in cement.

Bridges on Auburn Road and Road to Red Farm

Cement bridges have been constructed on Auburn Road and over the stream from Dority Pond on the road to Red Farm.

Plans for this work were prepared by Engineer Gallagher and the work completed by Contractor Thomas Hill.

We believe the work on both jobs was done in an efficient and workmanlike manner.

The Introduction of Gas to Millbury

During the year the Worcester Gas Company was given permission to open our streets for the laying of gas mains

and our town now enjoys the great advantages of this method of heating and cooking.

The streets and sidewalks, where excavations were made for this purpose, have been put back in good condition, at the expense of the Gas Company and further improvements will be made later when weather conditions are favorable.

Use of Tarvia on Our Streets

We recommended and the Highway Surveyor has treated many of our streets the past year with tarvia.

We believe the result warrants a continuance of this method of improving and caring for our streets in the future.

Enforcement of Liquor Law

There have been eight arrests for violation of the liquor law in our town the past year and six convictions.

We realize, as we believe most of our citizens do, that the liquor laws are violated in Millbury, and we are aware of the difficulty and expense in obtaining evidence necessary to secure a conviction. Considerable effort in this direction was made by our deputy sheriffs and we recommend a continuance of the appropriation for law enforcement and believe another year will show improvement in the enforcement of this law.

Special Town Meeting

A special town meeting was held in December at the request of the Overseers of Public Welfare and an additional \$1,500 appropriated for use of this department.

Widening of Grafton and Worcester Road

The Massachusetts State Highway Department has prepared plans for widening the G. & W. Road. The new plan will provide a much wider space for driving purposes and will be a great improvement to this thoroughfare.

The changes will entail considerable expense to the Town for payment to abutters for land taken.

Thus far the abutters have evidenced a disposition to be fair toward the Town and we do not anticipate a heavy expense.

Weekly Meetings Continued

Your board has continued their weekly meetings, our relations with each other have been cordial and the disposition shown to co-operate for the Town's interests.

The members of the various town departments and our appointees have joined with us to advance the Town's interests and to them we extend our sincere appreciation.

CHARLES H. HARRIS,
DANIEL J. DEMPSEY,
ARTHUR D. WINDLE,
Selectmen.

Report of Auditor

Millbury, Mass., Jan. 25, 1929.

To the Honorable Board of Selectmen:

I respectfully submit my report of the receipts and disbursements of the Town of Millbury for the year ending December 31, 1928.

Following are the unpaid bills on hand:

Poor Department	\$2,035 55
Highway Department	965 26
Insurance	99 57
Parks	3 75
Town Hall	32 67
Soldiers' Aid	60 00
Law Department	300 00
	<hr/>
	\$3,496 80

The Excess and Deficiency Fund shows a credit balance of \$26,955 25.

I wish to thank all Town Officials for the hearty co-operation received from them during the year.

Respectfully submitted,

JAMES J. CASSIDY,
Auditor.

JOHN J. MULHANE.

Report of Board of Public Welfare

To the Selectmen of the Town of Millbury:

For details of the expenditures of this department, see Auditor's report.

The report of the Charlton Home Farm Association will be found on another page of this book.

The large number of unemployed and more than usual sickness and accidents requiring hospital treatment caused an increased call for aid in 1928; we were, therefore, obliged to ask for an additional appropriation in December to pay the bills due in Town. This did not include payment of bills for Mother's Aid, Hospital, etc., due other cities and towns.

The most serious cases the Board is required to deal with are families deserted by the husband, which places the care and support of them on the town for years, and to an ever increasing number of applications for aid by families, the husbands and wives of which are well able to work, but unemployed. Some of these get work and become self-supporting in a short time; others do not appear to care to try, and require aid for long periods.

Both the National and State Government are now making an examination of this unemployment, having in view some way of prevention, and there is a bill now before our State Legislature which is intended to help many to find work.

We recommend an appropriation of \$17,500.00 for the support of the poor, including salaries of the Board.

Respectfully submitted,

ADOLPHUS L. MARTIN,
ALBERT F. DESPARD,
FREDERIC W. MOORE.

Report of the Charlton Home Farm Association

For the Year Ending December 31, 1928

Clothing	93 68
	<hr/>
	\$11,531 85
Balance in favor of Association	2,625 32

There were inmates from these towns during the year: Charlton, Rutland, Westminster, Millbury, Brookfield, West Brookfield, West Boylston, Sterling, Auburn, Princeton, Paxton, Ashburnham, Leicester, Oakham, Holden, Warren, Hardwick, Boylston and East Brookfield.

None were from Holland, New Braintree, Hubbardston, Berlin or Dana.

There were no boarders at the close of the year.

Warden Frank Walker resigned in January, and Howard D. Sargent was engaged as Warden.

Many improvements were made about the farm, and the piazza on the men's side was enlarged and enclosed with glass, affording a pleasant place for the men inmates in winter and on stormy days.

Charlton, January 1, 1929.

H. N. SHEPHERD, *President*,

L. M. HANFF, *Secretary and Treasurer*.

AUDITOR'S REPORT OF 1928

I have audited the bills of the officers of the Association, who have received and expended money during the year ending Dec. 31, 1928, and all bills have been correct and checks signed by the President and Treasurer.

EDWARD A. LAMB,
Auditor.

Report of Trustees of Public Library

Your trustees submit herewith their annual report for the year ending Dec. 31, 1928:

During the year just ended, the library has been open 221 days.

The circulation for the year was 18,003, divided as follows:

Fiction	11,405
Juvenile	5,308
Classified or non-fiction	854
Magazines	436

Three hundred and twenty-one books were added during the year; also a new Encyclopedia of twelve volumes. A valuable addition to the Library has been "The Pageant of America," in twelve volumes. This is the history of America in pictures.

Mr. Chauncey C. Ferguson has given the Library, children's books from time to time.

Respectfully submitted,

EDWARD F. RICE,
ALBERT G. HURD,
ARTHUR W. SNOW,
Trustees of Town Library.

Report of Engineers of the Fire Department

To the Honorable Board of Selectmen:

The engineers appointed by your board met and organized with William D. Horne, Chief; Joseph E. Army, First Assistant and Clerk, and Hervey C. Pierce, Second Assistant.

During the year, No. 1 Company answered forty-eight (48) bell alarms, sixteen of these being false, and thirty-four (34) still alarms. No. 2 Company answered thirty-three (33) bell alarms, nineteen of these being false, and thirty-five (35) still alarms.

Every year the board of engineers have pleaded with the public to stop pulling in false alarms, but it seems to be of no avail, as each year our false alarm record seems to increase. Once more we will ask that you please refrain from giving the firemen foolish calls, which is no fooling matter. This means disturbing the firemen all hours of the night. This we are compelled to do for all nonsense, and may result in some disastrous accident, which you surely would have to feel guilty of.

This year we have the smallest fire loss in history, due to the citizens guarding against fire and getting calls in quickly. This all enables the firemen to arrive before it gets a headway, as it is the first few minutes at a fire that amounts to a great deal. Let the good work continue.

Remember the fire hazards and guard against them. A dirty or defective chimney is the cause of the largest number of fires. Have them cleaned and repaired. Be sure and have a clean-out door at the base of your chimney; do not pull out a few bricks to clean it out, as they are never sealed up tight when replaced.

When installing oil burners, be sure you get one that is approved by the Board of Underwriters, and secure a permit from the Chief, as it has to be inspected by him before it can be put into operation.

Any rubbish, grass or brush fire in the open air requires a permit issued by the Chief.

Respectfully submitted,

WILLIAM D. HORNE,
Chief.

JOSEPH E. ARMY,
First Assistant and Clerk.

HERVEY C. PIERCE,
Second Assistant.

Report of Board of Health

Millbury, Mass.
January 14, 1929.

To the Honorable Board of Selectmen:

I hereby present the annual report of the Board of Health for the year 1928:

Chicken Pox	28
Bronchial Pneumonia	1
Diphtheria	4
Dog Bite	8
German Measles	1
Lobar Pneumonia	20
Measles	17
Mumps	3
Scarlet Fever	7
Tuberculosis	3
Whooping Cough	55

People do not think that whooping cough is to be feared, but there are more deaths from that than there are from any of the other diseases.

The State Board of Health reported that there were 500 deaths from whooping cough in the year 1927. Parents, please bear this in mind, and report each case.

Respectfully submitted,

PETER FERGUSON,
Clerk of the Board of Health.

Report of Moth and Tree Warden

December 31, 1928.

To the Selectmen of the Town of Millbury:

The report of the Gypsy and Browntail Moth Superintendent, Elm Beetle Superintendent and Tree Warden of the Town of Millbury:—

Gypsy moths have increased sixty percent over last year. Elm beetles and browntail moths average about the same as the previous year. Satin moths have increased twenty per cent over 1927.

The trees on all the town roads are in good condition.

EDWARD F. ROACH,
Local Superintendent and Tree Warden.

Appropriations

Repairing Permanent Roads	3,000 00

Town Warrant

Worcester, ss.

To either of the Constables of the Town of Millbury, in the County of Worcester, Greeting:

In the name of the Commonwealth of Massachusetts, you are directed to notify and warn the inhabitants of the Town of Millbury, qualified to vote in elections and town affairs to meet at the Town Hall in said Millbury, on Monday the Fourth Day of February next, at Fifteen minutes of Six o'clock in the forenoon, to act on the following articles, to wit:

Article 1. To choose three Selectmen for the term of one year; a Town Clerk, Treasurer, Collector of Taxes, Auditor, Moderator, six Constables, Tree Warden, Highway Surveyor, all for a term of one year; one Member Board of Public Welfare for three years, one member of the School Committee for three years, one Assessor for three years, one member of Board of Health for three years, one Trustee of Town Library for three years, one Commissioner of Cemeteries for three years, all to be voted for on one ballot.

Article 2. To choose all other necessary Town officers for the year ensuing.

Article 3. To hear the reports of the several Town officers and committees and act thereon.

Article 4. To raise and appropriate such sums of money as may be necessary to defray Town charges for the year ensuing, including sums for the lighting of streets, the maintenance of the Town Library, the observance of Mem-

orial Day, care and improvement of cemeteries, care of clocks, care of fire alarm, the use of the Tree Warden and for Town Aid to Needy Soldiers and their widows, salaries of Fire Department, or take any action thereon.

Article 5. To determine the time when all taxes shall be payable, and make regulations concerning the payment of the same.

Article 6. To see if the Town will vote to authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 7. To see if the Town will authorize the Selectmen to employ counsel in any suit that may be brought against the Town.

Article 8. To choose any committee or committees that may be thought necessary.

Article 9. To see if the Town will authorize the Selectmen to publish a list of all uncollected taxes with the annual reports.

Article 10. To see what action the Town will take with regard to hiring one or more permanent policemen to patrol our streets in the night time and raise and appropriate money for the same, or take any action thereon.

Article 11. To see if the Town will authorize the Assessors to print the Valuation and Tax list and raise and appropriate money therefor.

Article 12. To see if the Town will authorize the payment of outstanding bills from the unexpended balance in the Treasury, or take any action thereon.

Article 13. To see if the Town will raise and appropriate the sum of \$350, to be paid the Millbury Society for District Nursing, or take any action thereon.

Article 14. To see if the Town will raise and appropriate a sum of money to care for Neglected Soldiers' graves, or take any action thereon.

Article 15. To see if the Town will raise and appropriate a sum of money for granolithic sidewalks, same to be located and built under the direction of the Selectmen, or take any action thereon.

Article 16. To see if the Town will appoint a committee to consider the problem of additional school-house facilities and raise and appropriate a sum of money for use of committee, or take any action thereon.

Article 17. To see if the Town will vote to install three electric lights on Shore Terrace, Dority Pond Section, and raise and appropriate money therefor, or take any action thereon.

Article 18. To see if the Town will vote to raise and appropriate the sum of \$740 for support and maintenance of the Worcester County Tuberculosis Hospital, as per County Warrant, or take any action thereon.

Article 19. To see if the Town will vote to raise and appropriate the sum of \$500, for the suppression of the liquor traffic, or take any action thereon.

Article 20. To see if the Town will raise and appropriate a sum of money to provide for extraordinary or unforeseen expenditures under the provisions of Chapter 40, Section 6, of the General Laws of Massachusetts, to be known as the reserve fund, or take any action thereon.

Article 21. To see if the Town will vote to accept as a public street Johnson Street, so called, from Main Street to Park Hill, as laid out by Selectmen and as per plans on file at Town Clerk's office, and raise and appropriate money to repair same, or take any action thereon.

Article 22. To see if the Town will vote to change the name of highway leading from Main Street to Hamilton Street, from Miles to Hamilton Street.

Article 23. To see if the Town will authorize the Selectmen to employ a civil engineer, when in their judgment it is necessary, and raise and appropriate money therefor, or take any action thereon.

Article 24. To see if the Town will vote to raise and appropriate a sum of money to place an electric light on Martin Street about half way between the present light at the junction of North Main and Martin Streets, and the residence of Peter McManus, which is approximately six hundred feet, or take any action thereon.

Article 25. To see if the Town will raise and appropriate a sum of money to place three electric lights on the road leading from the Main Street in West Millbury, to the Fjellman residence, or take any action thereon.

Article 26. To see if the Town will vote to raise and appropriate a sum of money to put in a drain to take the water from the property of Walter J. Mahoney on River Street, or take any action thereon.

Article 27. To see if the Town will vote to raise and appropriate the sum of \$600, to repair the road commencing at the residence of Henry W. Davidson, and repair as far as said sum will do, toward the Oxford and Auburn town line.

Article 28. To see if the Town will vote to raise and appropriate a sum of money to install three electric lights, on the Oxford, Auburn and Millbury road, between the residence of M. M. Paine and the Stockwell homestead, or take any action thereon.

Article 29. To see if the Town will vote to raise and appropriate a sum of money to install eight electric lights on

the Oxford Road, commencing at the residence of G. Burton Stowe and as far as the residence of Oscar Hayden, or take any action thereon.

Article 30. To see if the Town will vote to raise one hundred and fifty dollars (\$150) to repair the town road from Millbury-Oxford road to the residence of John Bergstrom, or take any action thereon.

Article 31. To see if the Town will vote to raise and appropriate a sum of money to put Manor Road in condition, or take any action thereon.

Article 32. To see if the Town will raise and appropriate a sum of money for the purpose of placing two electric lights between the residence of Michael Hanivan and John Gilbert, Burbank Street, or take any action thereon.

Article 33. To see if the Town will raise and appropriate a sum of money for the purpose of putting a gravel and tarvia road on Burbank Hill from the residence of Charles Stockdale to the Sutton town line, or take any action thereon.

Article 34. To see if the Town will vote to place a hydrant on Miles Street Extension about 400 feet from Lincoln Avenue, and raise and appropriate money therefor, or take any action thereon.

Article 35. To see if the Town will accept as a public way Miles Street Extension, so called, leading from Wausau Street northerly, as laid out by Selectmen and as per plans filed with Town Clerk, and vote to name the street Miles Street.

Article 36. To see if the Town will raise and appropriate a sum of money to construct a cement cross walk from Town Hall to Pierce Block, or take any action thereon.

Article 37. To see if the Town will build a cement cross walk on Grove Street, northerly side at junction with Cherry Street, and raise and appropriate money therefor, or take any action thereon.

Article 38. To see if the Town will raise and appropriate a sum of money to repair Riverlin Street from the Buck Farm, so called, toward North Grafton, or take any action thereon.

Article 39. To see if the Town will vote to change the name of Wausau Street to Miles Street, or take any action thereon.

Article 40. To see if the Town will raise and appropriate a sum of money to repair drain on Howe Avenue, to care for drainage in that section, the Millbury Steel Foundry Company to join with the Town in providing for expense of same, or take any action thereon.

Article 41. To see if the Town will build a granolithic sidewalk on the southerly side of Grove Street from land of Mrs. Arthur Gillert to Waters Street, and raise and appropriate money therefor, or take any action thereon.

Article 42. To see if the Town will repair the culverts in West Millbury Road, near West End Thread Mill No. 2, and raise and appropriate money therefor, or take any action thereon.

Article 43. To see if the Town will vote to build a new bridge on Greenwood Street, near old Jennison place, and raise and appropriate money therefor, or take any action thereon.

Article 44. To see if the Town will vote to build a new bridge over the Blackstone River, near R. R. crossing at

Polachi place, and raise and appropriate money therefor, or take any action thereon.

Article 45. To see if the Town will raise and appropriate a sum of money to buy a "York Power Stone Raker and Rut Scraper," for use of highway department, or take any action thereon.

Article 46. To see if the Town will raise and appropriate a sum of money to pay abutters for property taken on account of widening Grafton and Worcester Road, and for expenses incurred in regard to same, in accordance with liability assumed at Special Town Meeting, November, 1928.

Article 47. To see if the Town will install additional electric lights on Wheelock Avenue, and raise and appropriate money therefor, or take any action thereon.

Article 48. To see if the Town will build a gravel sidewalk on Wheelock Avenue from schoolhouse to Grafton and Worcester Road, and raise and appropriate money therefor, or take any action thereon.

Article 49. To see if the Town will vote to treat Wheelock Avenue the current year with Tarvia instead of oil, and raise and appropriate money therefor.

Article 50. To see if the Town will build a cement sidewalk on Elm and South Main Streets adjoining Town Hall, and raise and appropriate money therefor, or take any action thereon.

Article 51. To see if the Town will vote to accept the street known as Raymond Street, as laid out by the Selectmen, leading from the Grafton and Worcester road at East Millbury, as per plans on file at Town Clerk's office, or take any action thereon.

Article 52. To see if the Town will vote to raise and appropriate a certain sum of money to build a granolithic curb and gutter on the southerly side of West Street from North Main Street to Cherry Street or take any action thereon.

Article 53. To see if the Town will vote to raise and appropriate a certain sum of money to construct a gravel sidewalk on the southerly side of West Street from North Main Street to Cherry Street or take any action thereon.

Article 54. To see if the Town will raise and appropriate a certain sum of money to construct a manhole on the corner of West and Cherry Streets, or take any action thereon.

Article 55. To see if the Town will vote to indemnify the Commonwealth of Massachusetts against any and all claims for land, grade and drainage damages which may be caused by or result from the laying out, alteration, construction or reconstruction of the State Highway known as Main Street, or any section or relocation thereof, and will authorize the Board of Selectmen to sign an indemnity agreement thereof in behalf of the Town, or take any action thereon.

The polls will be open at 5.45 o'clock A. M., and may be closed at 4 o'clock P. M.

And you are directed to serve this warrant by posting up an attested copy thereof at each of the Post Offices and at the First Congregational Meeting House in Bramanville, in said Town, seven days at least before the time of holding said meeting.

Hereof fail not and make due return of this warrant with your doings thereon to the Town Clerk at the time and place aforesaid.

Given under our hands this Twenty-first day of January
in the year one thousand nine hundred and twenty-nine.

CHARLES H. HARRIS,
DANIEL J. DEMPSEY,
ARTHUR D. WINDLE,
Selectmen of Millbury.

Attest:

Constable of Millbury.

Millbury, Mass., January 21, 1929.

Report of School Committee

To the Citizens and Taxpayers of the Town of Millbury:

The School Committee herewith submits its annual report. On the pages following our report will be found the reports to us of the Superintendent of Schools, the Principal of the High School, the Supervisors and others who have made reports as to the particular things under their charge. A perusal of those is advised as it will give to you a clearer conception of the exact situation, than might be gained from a brief resume of the different reports by the committee.

There is one thing, however, that ought to be given serious consideration at the present time. Attention has been called to it in previous reports, but now the situation is acute and demands present action. The population of the Town of Millbury has been growing and the school attendance is growing correspondingly. The present school buildings cannot sufficiently and adequately accommodate the number of pupils attending the schools today. High standards in education cannot be maintained, unless the material facilities that are necessary, are supplied to the Superintendent and teachers, who are endeavoring properly to educate the school children of Millbury. Our schools have attained a very high position and we are fearful lest failure on the part of the Town to provide school rooms will create such a condition that it will be improbable, if not impossible, to continue to educate the children as well as we have in the recent past. The facts and figures as to the different buildings, the number of rooms, the seating capacity and the necessity for more room is more fully set out in the reports of the Superintendent and others above referred to. The providing of additional school buildings is one of the conse-

quences of the growth of the Town. We all take pride in the fact that the population of the Town of Millbury has increased and is increasing, but we must also bear the burdens attendant upon such increase. We suggest very serious consideration of this matter so that when the question is before the voters at Town Meeting, they will be prepared, with full knowledge of the conditions, to act reasonably in the interests of the Town and the schools.

We are glad to report that the harmonious conditions of the past have been continued. Co-operation between the school committee, the superintendent and the teachers has been effective and beneficial. At the present time the great burden of the selection of teachers and the supervision of their work falls upon Mr. Ferguson. He has done his work well and we commend him for it. We also, in this report, desire to compliment all the others who have assisted Mr. Ferguson faithfully in the performance of his duties.

In conclusion, we who have the general supervision of the schools, desire to thank the taxpayers and citizens for their splendid co-operation in the past and trust that they will cheerfully assist in bearing the burdens of the present and the future, so that the public schools may be viewed with pride by all interested in the Town of Millbury.

Respectfully submitted,

THOMAS H. SULLIVAN,
WALTER B. HORNE,
DR. HENRY A. LECLAIRE,
School Committee.

Report of Superintendent of Schools

To the School Committee:

I respectfully submit this, my seventeenth annual report, and the thirty-ninth in the series of such reports by Millbury School Superintendents.

High School

Our pupils continue to make a creditable record in college. Lyman Cross of this year's class at Worcester Polytechnic Institute was the fifth recent graduate of our High School to make the honor society there. Only those few in each class who have attained the highest rank are eligible. This year also Morris Dana, M. H. S. 1928, did so well in his chemistry this fall at Worcester Tech that he was excused from class in this subject for the rest of the year. His teacher of chemistry here in the High School was Francis Doran.

It should be borne in mind that only pupils who attain a rank of G or better can be certified from this or any high school for college or normal school. Our marking is necessarily hard because if we over estimate a pupil's ability and he fails after entering college or normal school we have done him serious damage and have discredited the good name of the school and endangered its loss of the privilege of having its pupils enter college or normal school without examination. Parents desiring their children to be prepared for college or normal school should early decide upon where they wish them to go, should be sure they are taking the right subjects and enough of them, that they are maintaining a scholarship in each subject of more than 80%. That is, all marks should be E or G.

To insure a more careful following up of the work of

those pupils preparing for college or normal school, Mr. Ratigan, the Assistant Principal, was given the special task of finding out what pupils are making such preparation, what schools they are preparing for, whether they are selecting the right courses and subjects to insure this preparation, whether their marks are sufficiently high to justify their preparation. In other words he becomes the faculty advisor for these pupils in their work of preparation. Whenever anyone is falling below certificate grade in any subject, the advisor has a conference with him to see what the difficulty is, whether he is not studying hard enough, whether he is undertaking more than he is able, to find out how best to bring his work up to the proper standard, if possible, and, if not possible, to advise a change of plan. In this way we hope to avoid the condition where the pupil finds at the end of his course that he has not done well enough to go to the school to which his parents desire to send him, or that he has not taken such subjects as are necessary for admission to the school of his choice. Right advice at the right time may make all the difference in the world in the success or failure of the pupil to do well in his work. Many pupils undoubtedly would succeed better in their preparation for college if their work were distributed over five years instead of four.

Subjects Studied by High School Pupils

All study English, one-half study Science, over one-half History, almost one-half French, over one-quarter Latin, one-third Mathematics (not including arithmetic).

English	225	Ten classes
Science	120	Four classes
History	135	Five classes
French	105	Five classes
Mathematics (not arithmetic)	78	Four classes
Latin	62	Three classes
Spanish	27	Two classes

Commercial Work		Ten classes
Arithmetic	58	Two classes
Bookkeeping	34	Two classes
Typewriting	22	Two classes
Stenography	22	Two classes
Law and Geography	41	Two classes

Junior High School

Miss Bridget Connor has been appointed Assistant Principal in charge of the Junior High School. There have been few changes in teachers and only in those of Manual Training, Drawing and Physical Training. The new teachers in these subjects, Mr. Brannen, Miss Butkiewicz and Miss Sullivan have begun their work in a very satisfactory manner. Each group in the Junior High School now has a forty-minute period of Physical Training in addition to its daily drill. The work in drawing has been increased from 40 to 80 minutes. A commendably large number of pupils have won Palmer awards for various degrees of efficiency in penmanship. The list of pupils receiving awards will be found at the end of this report.

School Distribution

The largest increase in numbers has been made at Dorothy Manor this year. The first grade alone enrolls 37 pupils, more than any other first grade in town. The other five grades are distributed through three rooms which are already filled nearly to capacity. At the present rate of increase, this building will be overcrowded next September. Consideration should soon be given to the necessity of adding two rooms at least to this building which already has more elementary pupils than the Burbank School with five rooms, or the Union with four rooms, and about the same number as at Providence Street.

Repairs Completed

Owing to unexpected expenditures for repairs at the Union School, it was not possible to build the fence at East Millbury or to redecorate the Providence Street School as planned.

The following is the list of major repairs or improvements in buildings, etc.:

- I. High School—Installation of gas for laboratories.
- II. Providence Street—New curtains for all windows and additional seats.
- III. Union School:
 - a. Fire doors for furnace room.
 - b. Partitions in upper and lower halls.
 - c. New boiler and piping (partial).

All the above were required by State inspectors.

 - d. New curtains for three rooms.
- IV. Dorothy Manor:
 - a. New concrete walks were secured largely through the interest of R. M. Fowler and constructed under the direction of the Selectmen.
 - b. Additional seats.

Age—Grade Distribution of Pupils

The State Department of Education has recently published a set of statistics showing for each town and for the State as a whole the following facts:

- I. The per cent of children young for their grade.
- II. The per cent of children normal in age for their grade.
- III. The per cent of children average or retarded for their grade.

It is regarded as creditable to a school system to have a favorable per cent advanced or normal for their grade, as it seems to show that so careful attention has been given to

the instruction that relatively few have repeated grades and many have gained grades by reason of superior ability. The following figures are taken from this report.

Town	Children under age or advanced for their grade.	Children of normal age for their grade	Children average or retarded for their grade
Mass. as a whole	27.7%	62.0%	10.3%
Auburn	9.2%	78.0%	12.8%
Grafton	20.2%	65.3%	14.5%
Shrewsbury	11.9%	71.8%	17.3%
Millbury	25.6%	66.8%	7.6%

Millbury's per cent of those retarded is smaller than that for the State and very much smaller than that of the three neighboring towns of about the same population. One in every four of Millbury's pupils is at least a year ahead of his normal grade. Only 7 per cent of every hundred is retarded in Millbury as against 10 for Massachusetts as a whole, 12 for Auburn, 14 for Grafton, and 17 for Shrewsbury.

Health

During the past year the usual clinics have been held. The state clinic for retarded children showed less than ten or not a sufficiently large number to necessitate a special class.

The follow-up clinic for under-weight children seemed to show an improvement over the results of the preceding year.

A dental clinic for a forenoon a week has been carried on in the office of Dr. H. C. Morgan under the direction of the District Nursing Society, who have met about one-half of the expense. An increasingly large number of children are having their teeth 100 per cent.

An especially careful examination of every child in the

public schools has been made by the School Physician, Dr. A. A. Brown with the assistance of the school nurse.

The time allotment for physical training has been increased in the primary and intermediate grades with the hope that there may be a decided improvement in posture. Miss Jane Sullivan, the new supervisor and instructor in Physical Training, has made a very good beginning in this work.

For Which We Give Thanks

1. To Dr. A. G. Hurd for his prize for the best essay on a health subject by a pupil of the Senior Class. The winner was Edith Ceder.

2. To Dr. A. L. V. Sharon for his prize for the best essay on "The Care of Teeth," by a pupil of the 8th grade. The winner was Lucille Fontaine.

3. To the District Nursing Society and to Mrs. F. W. Hooper, its president, for the continued maintenance of the weekly dental clinic and for its arrangement for the daily distribution to the schools of pasteurized milk.

4. To the Millbury Savings Bank for its helpful co-operation which makes it possible for Millbury to have the "Educational Thrift System of Savings" in our schools.

5. To the East Millbury Improvement Association for its offer of the free use of its hall for public exercises of the East Millbury School.

6. To all others who have contributed in any way to the more successful operation of the schools.

Typewriting and Stenography Contests

In the annual Typewriting and Stenography Contest for Worcester County High Schools in which 10 towns competed, Miss Eleanor Mahoney was first in speed in first-year typewriting.

Later Miss Mahoney and Miss Ruth Dana went to Boston to compete in the State-wide contests in the same subjects.

Miss Dana was 4th and Miss Mahoney 3rd in the Stenography Contest there.

Debating Contests

The High School also was in the county high school debating league but, though very creditable debates were prepared, the teams lost to Oxford, to Uxbridge and to Webster.

Transportation

During the year, the bus transportation has been improved. Mr. Paletta bought an International truck with a Wayne school body, seating approximately 60 pupils. He was given two routes. The West Millbury for High and Junior High pupils and the Greenwood Street for Elementary children. Mr. Budreau still conveys the High and Junior High pupils from East Millbury and in addition the elementary children from beyond Buck's Village and from the Old Common section. The number of pupils coming from East Millbury has become so large, that the bus can no longer carry all. Eleven are now coming by electrics. It would seem desirable next year to secure a bus large enough to seat 45 to 50 pupils and of the same general type as that now driven by Mr. Paletta. The people of East Millbury are already asking for a better bus service. What is paid for the bus now used plus what is paid for transportation of extra pupils by electrics would probably be almost enough to pay the cost for improved and enlarged bus service.

Children are transported from Dorothy Manor, from Greenwood Street, from Auburn Road and from City Line and Park Hill to Senior and Junior High Schools and elementary pupils from the latter locations to Union and Providence Street Schools. The number of conveyed children increases every year and consequently the cost of this conveyance. Most of the house building in Millbury has been done sufficiently far from school buildings to require

either new buildings or conveyance to buildings already built.

The gain in enrollment in the High School for the last ten years is shown below:

1919	1920	1921	1922	1923	1924	1925	1926	1927	1928
133	151	156	165	150	170	183	207	225	228

In the Junior High School in spite of loss of pupils to the Assumption Parochial School, there has been an increase from 136 pupils in 1919 to 179 in 1928.

Taking the totals for both the Senior and Junior High Schools the increase has been from 269 in 1919 to 407 in 1928, or a gain of 138 pupils or 51 per cent. Should this increase continue at the same rate for the next ten years we should have a Junior-Senior High School registration of over 600 pupils.

Spelling Contest

A Spelling Contest was held in which all the fifth and sixth grade pupils competed in one group and the Junior High pupils in another. The best speller in each school was named and prizes awarded to these.

In the 5th and 6th Grades:

Best of all—Julia Silum.

Best in Burbank School—Julia Silum.

Best in Providence Street School—Kenneth Gould.

Best in Dorothy Manor School—Margaret Daw.

Best in East Millbury School—George Roe.

Best in West Millbury School—Olga Berg.

In the 7th and 8th Grades:

Best of all—Betty Magill, Grade 8.

Best in Grade 7—Doris Lambert.

Later a contest was held with Oxford to determine who should represent the two in the Worcester Telegram Spell-

ing Contest for all the pupils of Worcester County. Miss Eva Nash of the Millbury Junior High, Grade 8, was the winner. Later in the spelling contest at Worcester, where most of the towns and the cities of the county were represented by their best spellers, Miss Nash was again the winner, gaining the title of the best speller of Worcester County in Grades 5-8. This victory entitled her to a week's trip to Washington with a chaperone and to compete in the National Spelling Contest. Her teachers in spelling were Misses Honora Kinniery and Bridget Connor.

The only schools in Town now with room for additional pupils are those at East and West Millbury and at Bramanville and these are not so situated that they can conveniently take the surplus pupils of the other schools. The congestion, however, is greatest in the buildings now occupied by the Senior and Junior High Schools. More and more pupils are entering the High School after the completion of their grammar school courses and are continuing for a longer time there. For several years the number entering the freshman class each year has been between 85 and 90. For the last two years the total enrollment has reached 228, an increase in 10 years of nearly 75 per cent. If there is the same rate of gain for the next 10 years, the school will have 375 pupils. We are now graduating at the Junior High School over 85 pupils each year and have had enrolled this fall 179 pupils in Grades 7 and 8. There have been enrolled in both the Senior and Junior High Schools this fall 407 pupils. This great increase has necessitated taking over rooms, not intended or equipped for this purpose and needed for other purposes, for these additional pupils.

1. The use of the typewriting room for regular classes.
2. The use of the laboratory room for regular classes.
3. The use of the drawing room by a Junior High School class.
4. The use of the domestic science room by a Junior High School class.

5. The use of the auditorium for classes in drawing, sewing, dressmaking, music.

6. The use of two rooms in Union School for Junior High School classes.

7. The taking of one of the Junior High rooms as a home room for the excess of High School pupils.

We have now gone the limit in adapting space for these increased numbers. In so doing it can be seen we have handicapped these schools in several ways. There are no study rooms. Children must study where other children are reciting. A room for library purposes is practically indispensable in a modern high school. We have the nucleus of a good library, but no room in which it may be efficiently used. A room for free-hand and mechanical drawing is indispensable for good instruction in drawing. We have no such room now. Practically every High and Junior High School in the vicinity has more extensive courses in domestic science than we can offer, because we have no rooms in which to give such courses. Nearly 50 per cent of the 540 children in High School and Union Building bring their dinners to school. It is practically a universal custom in schools of this size elsewhere to provide lunches at cost for such pupils as wish them. We cannot do this because we have not room for such service. At present because of the overcrowding of the High School we are obliged to use two rooms of the Union School for the overflow. This means that at the end of each 40-minute period somewhere from 90 to 120 pupils must go back and forth between the two buildings. In inclement and cold weather there are naturally serious objections to this. Already the state building inspector and the state inspector for high schools have condemned this plan. However, as it is, we can do no differently because we have no place elsewhere for these pupils. We feel we are making the best of a bad situation and are hoping the Town will supply additional accommodations for its pupils before it becomes necessary to place these schools

on a part time basis with all the accompanying inefficiency, inconvenience and additional expense. The following letter from Mr. Morse, the State High School Inspector, after a recent visit here, also emphasizes our need and our present handicap.

November 15, 1928.

Mr. Chauncey C. Ferguson,
Superintendent of Schools,
Millbury, Massachusetts.

My dear Mr. Ferguson:

I am herewith submitting a report on the secondary school accommodations in Millbury. This report is based on a recent visit to the Millbury High School and the Union School and on data submitted by you.

I found the high school building rather badly crowded. Even more serious than the crowding at the present time is the lack of accommodations which are considered essential in high schools at the present time. The domestic science room and the drawing room in the high school building are now being used as classrooms. The drawing class is being held in the auditorium. This is poorly lighted and poorly suited in other ways for work in this important subject. The domestic science is also taught in the auditorium. This is not the place for this work. The scope and usefulness of the work in domestic science is, under these conditions, limited by lack of proper accommodations and proper equipment. There is need, also, of a good lunchroom in the building. One of the 8th grade rooms is now being used as a home room for high school pupils. At the present time the pupils are under the necessity of passing back and forth between the Union School and the High School. This passing between the buildings wastes some time and in cold and stormy weather is rather a serious disadvantage. The auditorium in the High School building is not large enough to seat all the pupils now in the school. In order to relieve the teachers from the necessity of having study pupils in

their classes, a study room is very much needed in the school. The gymnasium is very low and unsuitable for many games which are ordinarily played in high school gymnasiums. Shower baths should also be provided in connection with the gymnasium. The Union School is also lacking in some of the facilities which are needed for instruction in the 7th and 8th Grades.

The conditions which have been described above are apparently sure to grow constantly worse as the High School gains in enrollment. During the past ten years—from 1918-19 to 1927-28, inclusive, I find from the data submitted, that the High School, has grown from 129 pupils to 226 pupils. This is a gain of a little over 75 per cent. There is every reason to suppose that the High School will continue to increase in membership.

I am of the opinion after studying the situation with some care that the best plan to relieve the present crowding in the High School and to provide accommodations which are needed by pupils in the secondary school grades, i. e., Grades 7-12 inclusive, is to build a substantial addition to the present High School building. This, in my judgment, can best be placed on the end of the High School building nearest the Union School. Such a building should be so planned and constructed as to relieve the lack of proper facilities which have already been mentioned and to provide accommodations for the Junior and Senior High Schools. The enrollment in Grades 7-12, inclusive, at the present time is 398 pupils. At least twelve classrooms would be needed to take care of these pupils. If the financial situation of the town makes it necessary, some of the grade pupils could be accommodated in this building by the addition of extra classrooms. It is my judgment that it is not wise permanently to house the Junior High School with the grades. Such a combination may be allowed for a time with the expectation that as the Junior High School increases in size, the grades will be crowded out of the building and accommodated elsewhere.

I shall be glad to submit to you a list of some places which

have six-year high schools, or, as this is commonly called, Junior-Senior High School, and a list of buildings which have recently been constructed to house grades 6 to 12.

Very truly yours,

FRANK P. MORSE,
Supervisor of Secondary Education.

School Savings

The year has been especially good in school savings. Every school except the High School has had 100 per cent depositing. All but one pupil in the High School have deposited in the school savings. For the month of October, 98.2 per cent of the whole school membership deposited, the highest per cent of any Massachusetts city or town using Educational Thrift. The summary of high schools for November 20, 1928, gave Millbury High School as having 94.4 per cent depositing that week. Only eight of 56 other New England towns and cities using Educational Thrift showed a higher per cent depositing in their high schools.

The following is the actual record of deposits for the year 1928 at the Millbury Savings Bank:

Balance on hand from 1927	\$11,771 07
Amount deposited 1928	\$8,012 19
Interest	472 29
	<hr/>
	\$8,484 48
Amount withdrawn 1928	\$7,136 47
	<hr/>
Total gain	\$1,348 01
Balance in bank December, 1928	\$13,119 08
Amount per pupil in present enrollment of 1040	\$12 61
Amount per pupil in 1927	11 50
Gain in 1928, per pupil	1 11

Relative Cost of Our Schools

In these days of mounting costs of education, people naturally wish to know something about the relative cost of their schools compared with those of other communities. Fortunately, the figures for the State for the year ending July 1, 1928, are available:

<i>Per Pupil Cost</i>		
Items	Massachusetts	Millbury
Control	\$3 62	\$3 57
Teachers	67 53	54 17
Books and Supplies	4 61	4 75
Janitors, Fuel and Misc.	10 47	12 74
Repairs	5 01	3 26
Libraries	09	08
Health	1 36	1 21
Transportation	2 48	5 69
Tuition	86	13
Misc. Expense for Support	79	00
	<hr/>	<hr/>
Totals	\$96 82	\$85 60

Cost of schools in three neighboring towns of about the same location as regards Worcester and of about the same population and valuation as Millbury.

<i>Costs 1927-1928 (State Year)</i>			
Millbury	Auburn	Grafton	Shrewsbury
\$85,433 83	\$94,098 23	\$94,132 74	\$111, 436 56

Receipts and Expenditures 1928

Receipts:	
Appropriation	\$86,000 00
Expenditures:	
School Costs	\$85,916 55
	<hr/>
Balance	\$83 45

Of this expenditure of \$85,916.55, the State reimbursed the Town \$9,475 making the actual cost of the schools to the Town \$76,441.55. Next year owing to the increased cost of transportation and to more teachers having reached their maxima in salary, the amount required will be \$87,000 or \$1,000 more than was asked for in 1928.

Following this report will be found the reports respectively of the High School Principal, the School Physician, the School Nurse, the teachers of manual training and domestic science, the Supervisors of Music, Drawing and Physical Training and various statistics to which your attention is invited.

I wish to express my deep appreciation of the splendid co-operation and support that have been given me by your committee and by the teachers. If the schools have failed in the performance of their duties or in the maintenance of a proper standard of efficiency the Superintendent of Schools should be held largely responsible.

Respectfully submitted,

C. C. FERGUSON,
Superintendent of Schools.

High School Principal's Report

Mr. C. C. Ferguson,
Superintendent of Schools,
Millbury, Mass.

Dear Sir:

I have the honor of submitting my seventh annual report as Principal of the Millbury High School.

The school opened this fall with an enrollment of two hundred and twenty-eight students and is grouped as follows: One post-graduate, thirty-one seniors, forty-nine juniors, sixty sophomores and eighty-seven freshmen.

At present the High School has graduates entered in the following colleges, normal schools and other institutions of higher learning: Worcester Polytechnic Institute, three; Massachusetts Agricultural College, two; Northeastern University, four; Harvard University, one; Clark College, two; Brown University, two; Providence College, two; Dartmouth College, one; Holy Cross, one; Middlebury College, one; Tufts College, one; Magill University, one; Worcester State Normal School, five; Salem State Normal School, one; Post Business Institute, two; Becker's Business College, seven; Posse Nissen School, one; Nurses' Training Schools, three.

Millbury High School holds the certificate privilege of the New England Certificate College Board, also the same privilege in Technical Schools, and the State Department's certificate to Normal School. These certificates entitle a student, who receives a passing grade and a diploma to enter higher institutions of learning. All those who wish to avail themselves of certification must complete the required list of prescribed subjects as drawn up by the various

schools and maintain a standard in every subject fifteen to twenty per cent above passing grade.

As the requirements of nearly all institutions vary it is of vital importance that a decision be made as early as the second year as to a choice of school, so that the high school can prepare properly. Too often this decision is delayed by students and parents until the last year, in spite of continued warnings. The result is that graduates can not meet the requirements of the particular school which has been chosen at the last minute, even though they have the necessary scholarship and natural capabilities to continue.

The following prizes and awards in excellence in various lines of endeavor were adjudged for the past year: American History, Philip Johnson; Science and Mathematics, Morris Dana; The Doctor Hurd Essay Prize, Miss Edith Ceder. Miss Eleanore Mahoney won first prize in beginners' typewriting in the Worcester County High School Typewriting and Shorthand Contest.

Millbury High School students and faculty are seriously handicapped in accomplishing results owing to crowded conditions which are yearly becoming more distressing. According to statistics the per cent of enrollment is seventy-five per cent greater than 1918 with one less available room. The part of the building used for High School work has 197 available seats for 228 students. Next year's enrollment will force 240 students to share accommodations for 197. We have reached the point where it is necessary for Millbury to give serious consideration to the accommodations for Senior and Junior High Schools. If our continually growing High School can not expand, it will be a disadvantage for the boys and girls for the following reasons: 1. There are over 130 students taking drawing and sewing without the proper facilities for accomplishing work as required by colleges and the State Department of Education. 2. Two rooms are needed for classes and recitations. 3. One room is needed for study classes. 4. 240 pupils have no suitable or desirable place to eat their lunch which they

must bring because of the distance they reside from the center.

Every one of the seven periods of the day forces instructors and classes to makeshift for rooms for recitation and study. With a mixed group in each room the standard of classwork accomplished suffers, and study periods under supervision are of necessity largely abolished with a resultant waste of valuable time and poor preparation by students. They are forced to do extra homework by themselves without the guidance of experienced teachers. It is absolutely necessary that students do homework, but a large per cent need aid during school hours, which they cannot obtain, and this fact tends toward inferior work and failures.

The congestion is so great that it is physically impossible to arrange various classes according to the courses offered and required. Also only a few groupings of divisions according to ability can be made. This seriously handicaps a large per cent who cannot continue their studies beyond high school.

The Junior High School under the present accommodations is using four rooms of the High School building and two in the Union building which necessitates several classes a day transferring from one building to the other. This is a serious handicap in work, time, and health particularly in cold or stormy weather.

The Assembly Hall is used continually by both Junior and Senior High Schools for work which it is not adapted to, thus forcing out several phases of school activities which are being carried on by other high schools successfully and considered a part of a modern curriculum.

The installation of gas in the Science Department will enable it to accomplish more valuable work. Since the establishment of a Physical Education Department the finishing of the shower bath equipment would greatly benefit athletic teams and gymnasium instruction. The placing of double windows on the back of the building would aid in

heating rooms in cold or windy weather. It is impossible to heat many rooms above sixty per cent with ten pounds of steam pressure on the boilers. This handicaps work and is dangerous to the health of students and teachers, as well as causing a large waste of fuel.

I wish again to urge upon parents the necessity of regular attendance. Many students fail or stand low in their classes due to irregularity in attending school. Much is missed that can never be made up outside of the classroom.

The School Banking and Saving System inaugurated several years ago is meeting with great success. The High School during the past year has greatly increased its per cent of depositors. This factor is very valuable as many students and their families can ill afford to meet the heavy expenses of graduation, but with a small amount deposited each week for four years a student has ample funds to meet his financial obligations at Commencement or other times.

In conclusion, I wish to express my appreciation to all those who have given of their time, assistance, and continued co-operation for the past school year.

Very truly yours,

ERNEST W. PRATT,
High School Principal.

Report of School Physician

Mr. C. C. Ferguson,
Superintendent of Schools,
Millbury, Massachusetts.

All the public school buildings in the town were visited and inspected since the beginning of the present school year, and the routine medical inspection of the pupils has been finished. This inspection included the pupils of the High School as well as in the grades.

The predominating defects found were carious teeth and hypertrophied tonsils. These defects were mostly in the five lower grades. However, many children were having dental attention and many tonsillectomies were performed since our previous inspection.

We have had no outbreak of any of the communicable diseases in the schools during the past year, with the exception of whooping cough. At the beginning of the current year, whooping cough became very prevalent in the West Millbury School, the first three grades in the Union Building and the Dorothy Manor School.

In the spring it is proposed, with the consent and assistance of the Board of Health, to offer free immunization against diphtheria by the toxin-antitoxin injections. This offer will be extended to the children in the first three grades and it is planned in subsequent years to extend the offer to the children entering school.

Very truly yours,

ARTHUR A. BROWN, M. D.

Report of the School Nurse

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Mr. Ferguson:

The following is the report of my work as School Nurse in the Millbury Schools:

Three days a week, Tuesday, Thursday and Friday are spent in Millbury.

Every Tuesday, from nine to ten o'clock, I am at the High School. This hour is for the benefit of the pupils of the High and Junior High School, who might need advice or first aid.

Every school child was given a physical examination with the nurse present. Notifications were sent to parents, telling of defects found, and urging them to have corrections made as soon as possible.

Considerable time has been given to the weighing of children who were classed as Hilum Suspects, and those who were 10% below normal weight found at the clinics held in April and October, 1927. Each child had a health card to record monthly weights, health habits and defects corrected. All of these records have been sent to Westfield for inspection.

On November 9th, the State Department of Public Health held its first clinic for the re-examination of those children recommended from the other two clinics held. Following is a report of the clinic:

Number of children recommended for re-examination	36
Number of children moved away or left school	9
Number of children refused	3

Number of children re-examined	26
Number of children improved	15
Number of children unimproved	9
Number of children recommended for X-ray	1
Number of children recommended for sanatorium treatment	1
Number of children recommended for summer camp	2

Seven of these children have had tonsil and adenoid operations.

Two clinics for retarded children were held March 5th and 12th. Eighteen children were examined, few of the parents were present, but promised to have all physical defects corrected.

Every Thursday morning the Dental Clinic is held at Dr. Morgan's office. We are making an effort to impress the children of the importance of good teeth. We are starting on the sixth year, and the interest is shown by the work done this past year and by the long list we have waiting for their turn.

The report of this clinic for the past year is the following: Thirty-one clinics held, three hundred and twenty-five appointments and one hundred examinations.

Health day was celebrated in June. About two hundred and eighty children were given dental certificates showing they had 100% mouths. Tags were given to children whose posture and weight were correct. To Miss Alice Dolan's sixth grade goes the honor of having every pupil holding a certificate.

Milk is served every morning in four buildings, Union, Burbank, Providence Street and Dorothy Manor. All children are asked to drink milk, but the underweights are encouraged to do so. Those who are underweight and not able to buy the milk get it free.

Dr. Oscar Dudley gave a health talk and Miss Christine Higgins showed the film, "Delay is Dangerous," to the pupils of the High School.

Through the sale of Xmas Seals, three girls were sent

to Sterling Health Camp for four weeks. All gained in weight and health habits. I wish more could have gone.

Whooping cough and chicken-pox invaded the schools this year and several cases of scarlet fever were reported. Impetigo was found in several of the schools, but these cases are excluded as soon as they are discovered.

Pedeculosis for the present is absent. We have all worked hard to reach this goal and feel very proud of it.

I wish to take this opportunity to thank you, Mr. Ferguson, the teachers and the parents who have co-operated and assisted me in the health work.

Respectfully submitted,

MAY A. STAFFORD, R. N.,
School Nurse.

Report of the Music Supervisor

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Sir:

Musical culture for every one is the chief, and I may say, the sole aim of school music.

The goal is not so much the stimulation of the gifted as it is the musical culture of the average boy and girl. The fundamental purpose is to develop a desire for music, and at the same time to cultivate a knowledge of music, because the highest desire cannot exist without a sufficient background of knowledge, nor can one proceed far in the pursuit of any kind of knowledge without having a genuine desire aroused.

Having these two closely related aims in mind, the first consideration in all music work is the child; his mental and emotional condition, his tendencies and possibilities for absorbing music, and a way to teach music to children which emphasizes the potent force in its power to soothe and heal, to inspire and stimulate.

Attention is given to their voices, so that an attractive singing tone may be cultivated, and when used correctly it can possess the power of making beautiful music. As a means to this voice cultivation, all songs are presented within the proper vocal compass, whether in the first grade or Junior High School, so that all vocal strain may be eliminated and natural voice production may be fostered.

Having been instructed to use their voices correctly, songs which inspire good tone production should be the right of pupils to expect, and here I may mention with appreciation that this quality of song material may be adequately found

in the "Music Education Series." I have been able to place this material in many of the grades, and the result is very satisfactory.

Passing from the elementary to the High School, an encouraging fact deserves mention here. In testing the voices of the High School pupils at the beginning of the fall term, the records show but one voice among the girls that registers a positive monotone. The inability to sing of any of the boys was due to the extreme change of voice during adolescence. In the seventh and eighth grades the improvement in independent singing is very marked.

In closing, I wish to thank the teachers for their extreme co-operation this year, also the members of the School Committee and Superintendent.

Respectfully submitted,

MARY T. BERGIN.

Report of Supervisor of Manual Training

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Sir:

I hereby submit my first report as Supervisor of Manual Training in Millbury.

The course followed this year is one of general shop work, taken up in four parts, namely, cabinet work, pattern making or model making, carpentry and household repair.

These branches are the most valuable in helping the students to choose future vocations as well as of great benefit in establishing skill in use of tools.

Each student has an opportunity of choosing work to his liking and all students obtain the essential processes of squaring up stock, joining, wood finishing, assembling and general repair.

Some knowledge of different woods and their uses, names and care of all hand tools, hardware and all articles used in connection with the work is derived by all students.

Free hand drawing and study of design, reading of blueprints and plans are also included.

The aim of manual training is to help choose future vocation, to make better home builders and to form character through gaining knowledge of the value of honest work and its results.

I take this opportunity to thank all the teachers and the Superintendent for their generous support and co-operation.

Respectfully submitted,

HALLIS G. BRANNEN.

Report of Supervisor of Drawing

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Sir:

I hereby submit my first report as Supervisor of Drawing in the Millbury Public Schools.

In the High School and the grades, the course consists of work in design, representation and construction.

The standards of good taste are taught by the practical common sense application of the principles of color, form and line harmony, contrast and proportion. The art problems are interwoven with the regular course of the school and in turn serve the general industrial requirements of the country.

As a help for the teachers in carrying out the work for each month, an illustrated mimeographed sheet of the work to be carried out during the month is given to each teacher. These illustrated outlines consist of carefully planned series of lessons, which are discussed with the teachers, making clear their purpose and results that should be obtained, emphasis being laid on the amount the child should gain, mechanically and esthetically.

A design course, consisting of the laws of order, color, shape and line, has been planned for the grades through the sixth and will be put in operation in February, 1929. By studying the laws of design, which are the basis of science as well as of art, the children acquire simply the foundation of a well balanced life. It gives them power to create orderly and possibly beautiful designs in color, line, shape and form, and increases their discrimination in the selection and arrangement of art products.

The course in representation which is now being carried out through the grades is planned to develop the habit of using drawing as a language, to develop the visual memory and creative imagination, and to develop the power of discriminating observation. The children learn to sketch with pencil, crayon or brush so as to show how an object appears or to illustrate one's idea or record of one's observation.

The problems consist of drawing from nature, the study of plants and trees, illustrating of stories, decorations for the holidays, and figure drawing.

Construction work brings experience in shaping raw material till that material embodies the worker's idea in concrete form. It gives practical familiarity with common tools and processes. It brings a healthy realization of the gap which exists between an idea and its finished embodiment in concrete form. Paper folding and cutting, following directions and neatness, have been stressed in the course.

In the Junior High School, the drawing is carried out by the supervisor and Miss Leary. The children have worked on problems in design and nature study, free brush work, lettering, gifts for the holidays, greeting cards, picture frames and window decorations. Several lessons have been devoted to creative expression.

The High School classes have had a course in nature study, color and design. Exercises have been furnished to develop good taste in connection with the things which make up the environment of everyday life and of awakening appreciation of beauty in nature and in art. At present they are designing Christmas Cards, creating original designs and selecting the proper color scheme.

The mechanical drawing for the High School includes mechanical lettering, the proper use of instruments, geometric construction, dimensioning of drawings, inking in of drawings, surface development, isometric drawing and the principles of orthographic projection.

I wish to express my appreciation and thanks for the co-operation, interest and fine spirit which the superintendent, principals and teachers have shown me.

Respectfully submitted,

LEONA T. BUTKIEWICZ.

Report of Supervisor of Physical Training

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Sir:

I hereby submit my first report as Supervisor of Physical Education in the Millbury Public Schools.

The aim of every Physical Education Department is, "Perfection in Posture." This means, not only straight carriage, but "physical fitness," attained by corrective exercises, when necessary, and by natural exercise and play at all other times.

The children in the schools have been examined and marked accordingly—A for perfect posture, B good, C fair, D poor. Not anyone received A.

The following figures will show the results of the examinations:

School	Good	Fair	Poor	Total
Senior High	13	47	46	106
Junior High	46	63	61	170
Providence Street	24	46	60	130
Dorothy Manor	32	50	43	125
Burbank	18	49	52	119
Union Building	8	67	42	117
East Millbury	9	27	29	65
West Millbury	7	10	16	33
	<hr/> 157	<hr/> 359	<hr/> 349	<hr/> 865

The results show that forty-three per cent of the number in the Senior High School, thirty-five per cent of the Junior High and forty-one per cent of the Elementary Schools have poor posture.

The majority of the children included in this class are not in serious condition, but in a condition resulting from self-consciousness, weariness and malnutrition. In the latter case it is practically impossible to do anything in the way of correction by exercise.

Each and every child in these groups has been taken individually and corrective exercises prescribed for his or her own fault.

The remainder of the children are building up their bodies by means of daily exercises and games under the supervision of their class teachers. In this way, we hope to really have A grades in posture in the near future.

At this time I wish to thank you, Mr. Ferguson, and the teachers of all the schools, for the fine cooperation given me in my work.

Respectfully submitted,

JANE E. SULLIVAN.

Report of Supervisor of Sewing

Mr. C. C. Ferguson,
Supt. of Schools,
Millbury, Mass.

Dear Sir:

I herewith submit my third annual report as Supervisor of Sewing in the Millbury Senior and Junior High Schools.

The work for the year has been planned to give the girls an opportunity to acquire a full knowledge of the fundamental principles in sewing.

At present the girls are making night gowns, slips, bloomers, pajamas and dresses.

Important lessons are given in darning, buttonholes, needlework, hemstitching, Swedish weaving, embroidery, cutwork, during periods when the pupils are compelled to wait for the sewing machine. When satisfactorily done, they can be applied to larger projects.

The aim has been to teach the pupils to form correct habits through practical work. Emphasis is placed on neatness, cleanliness, economy of time and material.

In closing, I wish to thank you, the Committee and teachers for their hearty cooperation and interest.

Respectfully submitted,

ROSE MOOSAIAH.

Pupils of the Junior High School, Grades 7 and 8, Miss Helen Grace Dolan, teacher, who have won one or more A. N. Palmer Company awards for proficiency in Penmanship.
